# The Who.

- Cobalt Credit Union has 107,577 members.

# The Why.

- In short, we wanted a way to fund our new accounts.
- What also happened, COVID. Our remote deposit limits were set at \$2,500.00 pre-COVID and eventually increased to \$5,000.00 (still current). Members wanted convenience of not leaving their current location to make a check deposit.
- When our lobbies closed in March 2020-June 2020, it re-routed most of our membership to the ITMs (Interactive Teller Machines) and the check deposit option on Video allowed us to still assist these members without them waiting in a drive thru line.

# The Data.

- POPIO went live on 04/2019. Web first, mobile apps live one month later.
- VCD testing started in 08/2019. VCD went live in 03/2020.
- Over 700 Check Deposits completed in 2021 alone. One check per workflow.
- Over 9500 Video sessions in 2021.
- 9 Video Banking employees.
- Alloya processes our check deposits, processing is completed one file (same time as ITMs) at 7:45pm each week day.
  - Separate branch ID, but in the same file as our mobile remote deposits for balancing.
- Marketing for Video Banking but not for Check Deposits specifically.
- Recent updates have allowed for cropping the front and back check images, and also a pre-pic disclosure.
